Next course dates

Learn the basics of canine obedience and develop a closer bond with your canine friend using positive reinforcement, praise and mild corrections. You will learn to train your dog to walk on a leash with you, heel, sit, stay, stand, down and come when called. Other canine relationship tips will be introduced when time permits.

The Basics

Help your best friend develop the habits they need to become a valued member of your family.

- All dogs should be at least 4 - 6 mos. of age
- Proof of vaccination records by a licensed veterinarian is required the first night of class
- Dogs that show aggressive behavior towards other animals or people will be evaluated before acceptance to class
- We recommend bringing a 6 ft. leather leash, chain or pinch collar to class. No flexi leads please!
- Some training tools may be available for purchase at class.

Thanks to Scott G. Abadie, DVM for his generous offer to use his property for these training classes.
